

# Sainsbury's

**Coalition member since 2020** | As of September 2023, palm oil, soy, paper, pulp, and fibre-based packaging (PPP), and beef are material commodities for Sainsbury's.

The following table includes a list of each Key Performance Indicator (KPI) for each material commodity, along with the company's 2021, 2022 and 2023 reporting record. The record includes the following responses:

- "Yes" indicates a company is reporting against a KPI and reporting quantitatively where indicated
- "Yes – narrative reporting" indicates a company is reporting qualitatively against a quantitative KPI
- "Not yet reporting" response indicates a company is not yet reporting on a KPI
- "N/A" indicates a KPI was not established in a given year

Companies have also provided information on their performance against appropriate KPIs, along with methodologies and targets. This information has been self-reported by companies and verified by Proforest.

Links are provided to information when a company is reporting ("Yes") against a public information requirement, and when a company is reporting qualitatively ("Yes – narrative reporting") against a quantitative KPI.

For a full methodology on the Forest Positive Coalition's reporting process, including a list of all KPIs and public information requirements, visit [transparency.tcgfforestpositive.com](https://transparency.tcgfforestpositive.com)

## Beef and other cattle-derived products for Retailers and Manufacturers

Beef KPIs	Publicly reported value and method provided in 2022	Publicly reporting as of June 30th 2023	Publicly reported value or narrative for 2023 on 2022 data	Methodology	Scope*	Link to publicly available source	Target (optional)
<b>Element 1</b>							
<b>1.1 Policy commitments to the forest positive goals</b>	Notes: policy covers DCF commitment. Taken steps together with our suppliers and the wider industry to try to address the link between cattle farming and the destruction of ecosystems like the Amazon and the Cerrado. In November 2021, decision to stop selling Brazilian beef in our own-brand products. Link to reporting: <a href="#">Sourcing Deforestation Free Beef – Sainsbury's</a>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	At COP26 in November 2021, we committed to ensuring our own brand product supply chains would be Deforestation and Conversion Free (DCF) by 2025, with a cut-off date of 2020. This includes our beef supply chains. In 2023, we have aligned our approach on beef sourcing to all cattle-derived products in our supply chains including leather used in our furniture and clothing. Alongside ensuring our leather sourcing is DCF by 2025, we have committed to sourcing 100% from Leather Working Group certified tanneries by 2023 and 100% Gold Leather Working Group certified tanneries by 2025.	Inclusion of commitments on human rights, moving away from high risk areas and scope of total commodity volume.	All beef ingredients within Sainsbury's own brand products. This represents 99.8% of our total commodity volume.	<a href="https://about.sainsburys.co.uk/sustainability/plan-for-better/our-stories/2023/sourcing-deforestation-free-beef">https://about.sainsburys.co.uk/sustainability/plan-for-better/our-stories/2023/sourcing-deforestation-free-beef</a>  <a href="#">Our Policy on Ethical Sourcing 2022.pdf (sainsburys.co.uk)</a>	2025

\*Scope: What materials/products are in-scope of the reported value, and what proportion of total commodity volume does that scope represent?

Beef KPIs	Publicly reported value and method provided in 2022	Publicly reporting as of June 30th 2023	Publicly reported value or narrative for 2023 on 2022 data	Methodology	Scope*	Link to publicly available source	Target (optional)
	( <a href="https://www.sainsburys.co.uk">sainsburys.co.uk</a> )		We are committed to respecting human rights across our value chain to ensure the people who make or grow our products are not being exploited or exposed to unsafe working conditions - and ensure our businesses' transition to Net Zero is just and equitable for the communities we source from (Ethical Sourcing Policy, Code of conduct for ethical sourcing).				
<b>1.2 Timebound action plan summary</b>	At COP26 in November 2021, we committed to ensuring our own brand product supply chains would be Deforestation and Conversion Free (DCF) by 2025, with a cut-off date of 2020.	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	At COP26 in November 2021, we committed to ensuring our own brand product supply chains would be Deforestation and Conversion Free (DCF) by 2025, with a cut-off date of 2020.  Alongside ensuring our leather sourcing is DCF by 2025, we have committed to sourcing 100% from Leather		As above	As above	By 2024 we will source 100% of our beef from low-risk origins.

\*Scope: What materials/products are in-scope of the reported value, and what proportion of total commodity volume does that scope represent?

Beef KPIs	Publicly reported value and method provided in 2022	Publicly reporting as of June 30th 2023	Publicly reported value or narrative for 2023 on 2022 data	Methodology	Scope*	Link to publicly available source	Target (optional)
			Working Group certified tanneries by 2023 and 100% Gold Leather Working Group certified tanneries by 2025. This year we are working to trace our leather supply chain back to country of origin to understand the proportion of our volumes that are from high-risk countries, with a view to report this next year.				
<b>1.3 Beef footprint across all product categories</b>	50,886 tonnes	Yes: quantitative <input checked="" type="checkbox"/> Yes: narrative <input type="checkbox"/> No <input type="checkbox"/>	<b>61,807 tonnes</b>	To calculate our beef footprint across all product categories we look at the amount of beef ingredients in our own band products and how many of those products we sell each year.	As above	As above	
<b>1.4 % with known origin</b>	96.6% from UK&Ireland 0.4% - other low-risk origin (non South-America)	Yes: quantitative <input checked="" type="checkbox"/> Yes: narrative <input type="checkbox"/> No <input type="checkbox"/>	% beef from low-risk origin: <u>99.9%</u> - % from UK & Ireland: <u>98.4%</u> - % from other low-risk origins (non South-American): <u>1.4%</u>	[Volume of beef sourced from different risk origins] / [Total Volume of Beef]	As above	As above
